

128 Curtis Street  
Meriden, Connecticut  
March 21, 2001

Dear Sir or Madame,

I am against gene therapy and  
xenotransplantation.

The FDA should disclose all  
information such as physicians,<sup>1</sup>  
medical centers and so on.<sup>2</sup>

The FDA must assume the sole  
responsibility for summarizing and distributing  
information submitted by the research  
sponsor, rather than leave it to the  
sponsor's discretion.

Because of the public health risks,  
ethical issues, cost uncertainty, and  
the inability to adequately assess the  
alternatives, all xenotransplantation  
clinical trials should stop.

In regard to docket DSN-0989  
this letter and three copies are  
being sent.

Enclosed:  
3 copies

Thank you,  
Margery Hall
